About Us

Who we are

We are simply years of experience

Is a continuation of the work process started as one of the leading companies operating in Delta, whose strategy depends on providing the best products in terms of quality of raw materials and prices, which are equivalent to the quality of foreign methyl?

The company started its activity in 2005. During that period, we expanded our work in the Egyptian market. And independent supply operations. Finally, in line with the policy and orientations of the state and the exploitation of our international experience we have opened foreign markets for The Export of Vegetables and fruits to many countries such as Russia - China - United Arab Emirates - Saudi Arabia - Jordan - Oman and other countries
